

Equipment Sign in/out, assist volunteers with packets, equipment and file
(one person)

Thanks for volunteering for the Cherry Pie. Every volunteer for the Cherry Pie will be reporting to you for pre-printed written instructions. In addition, each racing field will have a minimum of three cars working. Each of these cars need equipment from OBRA to do their job safely and effectively. Likewise, all of the equipment needs to be returned at the end of the day so OBRA can have it for the next event. There will be two waves of racing so you will need to be present at the beginning of each wave (9-10 and 11:30-12:30) to hand out equipment.

Your job will be to:

- Give each driver the correct equipment
- Have the drivers sign-out the equipment
- Inform the drivers that they must return, and sign-in, the equipment when they have finished their task
- Provide each volunteer with their pre-printed instructions
- Collect the volunteer waiver forms

Every vehicle must have the following:

- Amber flashing light that attaches magnetically to the top the vehicle
- Radio tuned to (3-15) if they did not bring their own
- Power adaptor if needed for the radio

THANK YOU!
